DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5-11, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Gerald (2,110,124).

Gerald shows a flange 6 on an engine block 5 whose exterior surface defines both the peripheral sealing portion and divider between passages 8 and 9. There is an adaptor at 7 that has a surface essentially identical to that of flange 6.

Claim 15 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Gerald. While openings for passages 14 and 28 appear to be the same size, there is no reason that they could differ due different manufacturing tolerances.

Allowable Subject Matter

Claims 2-4 and 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 17 and 18 are allowed.
